

About the Addiction Awareness Family Workshop

This one-day workshop was developed to provide some helpful tools for families, professionals and others whose lives are connected to individuals with alcohol and/or other drug-related issues.

The program consists of educational sessions formulated to increase awareness of substance-related consequences and effects on others, deepen understanding of addiction as a brain disease, suggest options for help, explain use of the 12 Steps in recovery and strengthen the church's ability to minister to individuals who are experiencing problems caused by substance misuse.

Why is it needed?

Substance misuse touches every family in every community. Statistics suggest that 66% of the population uses alcohol and/or other drugs. Of those, 20% experience major life consequences resulting from abuse (e.g. drunk driving, health problems - - just two of MANY problems) and 10% develop the disease of alcoholism/addiction. Every person with an addiction affects 4 to 5 other lives.
